

OFFICIAL WASHINGTON STOPS WORK TO GREET THE KING OF THE BELGIANS AND PARTY SOLDIER RULER GIVEN A CORDIAL WELCOME

Thanks to America for Aid Given War Ridden-Belgium in Gloomy Days of Great World War.

WASHINGTON, Oct. 28.—Both houses of congress in their work today to greet the king of the Belgians and his consort and their son. It was the first visit of a royal family to the capitol and the lawmakers of the nation gave a cordial welcome to the democratic soldier-ruler of Europe's pluckiest little state.

King Albert's addresses first in the senate and then in the house, made scarcely six hundred words but in them he gave the American army credit for assuring victory in the war, paid homage to the fallen and extended his sympathy to the wounded. He expressed his admiration for the States, acknowledged the role of the makers of Belgium's constitution to those who framed it, and predicted that the ties binding the two nations would never be broken and that he thanks to all the Americans who aided his people in the war.

There was little ceremonial visit to congress but there was a mistaking of the warmth of the meeting given the royal Belgian. The galleries were crowded and admission was only by invitation and nearly all the senators in their seats when the king's majesty was announced. Officers of the supreme court, members of the cabinet, and spectators rose and greeted the king with a vigorously as the tall figure of the king strode the aisle beside Senator Brabant escorted by Seneca.

Minutes later the hand changed to cheers, as Elizabeth, crowned in white wearing a wine colored cloak, appeared in the executive gallery with the wife of Vice President Marshall and attended by Countess DeCarman-Child, the lady in waiting. Children of the upper house for their dignity in their admiring the little woman who had seen her husband thru the hells in Belgium.

Great applause King was escorted to a seat by Senator Cummins who was dining and who greeted him with high praise for his moral courage and gallantry on the field. Leopold was seated at his right. Grouched about were Belgian and American members of his majesty. With them Ambassador Brand Whitlock, Baron DeCartier De Marchais, the Belgian ambassador, who was interrupted more once by applause during his address. Later he and his wife met the senators individually. The scene in the house was similar. The king, the queen, the children, any of the members and their wives were as enthusiastic as the king himself. The king sighted before his coming had heralded and the house and wives rose to greet him. There was another burst of applause when he was introduced in even louder one when he finished.

King Albert was the central figure later in the day in a ceremony more picturesque if less important than his visit to the capitol. It was enacted in the drawing room of Breckinridge Long, he is a guest, when Secretary of War Baker pinned upon him the American Distinguished Service Medal.

Greeted by Pershing. General Pershing was there to greet the leader of Belgium's army. With him were General Ch. General Jacques, General ght, Admiral Long and Prince pold. Albert wore no decoration upon his lieutenant general's arm until that of America was added there and the only ribbon Pershing's unit denoted the cross of Belgium.

Secretary Baker, in a brief address, expressed the pleasure it gave him to decorate so brave a hero and then read the citation which granted him his majesty the king in recognition of "the distinguished and patriotic service he has rendered to his country and to the American cause upon the battlefields of Europe."

Albert hesitated a moment and voice trembled slightly as he received his appreciation of this war worn by so many distinguished soldiers. Then turning to General Pershing he added: "I am pleased to receive it in the presence of the commander-in-chief of the American Expeditionary Forces."

As he ceased speaking he and Pershing, each animated by the impulse, stepped forward and clasped hands silently. The royal party were the guests

Packers Invest Large Sums In Hotel Companies

CHICAGO, Oct. 28.—Letters indicating that the big Chicago packers had invested large sums in stock of large hotel companies especially in New York were introduced today in the interstate commerce commission's hearing of the National Wholesale Grocers' association complaint that the packers receive special service from the railroads. The letters went into the record over the objection of counsel for Swift & Co.

The letters, chiefly written in 1917 by Louis F. Swift, head of Swift & Co., indicated that Armour & Co., held \$200,000 in stock in the Biltmore and about \$500,000 in the Commodore Hotel Companies of New York and that Swift & Co. had taken \$50,000 in the Hotel McAlpin. The letters to other officials of Swift & Co. suggested that it should be a good policy to take stock in substantial hotel enterprises in order to obtain the business of provisioning these establishments, and told of an effort to obtain stock in the Biltmore and Commodore Hotel Companies, adding "but it was impossible." Armour had arranged it in advance.

Swift & Company's subsidiary, the Metropolitan Hotel Supply Company had a share of the provisioning business of the Hotel McAlpin, of New York, had been promised the entire business of the Hotel Ansonia also of that city. One letter recommended an investment of \$500,000 by Swift & Co. in the United Hotels Company, operating hotels in several cities.

LEE WILL CONFER WITH HINES TODAY

WASHINGTON, Oct. 28.—The general committee of the Brotherhood of Railway Trainmen will meet tomorrow with Director Hines on the union's wage demands which are about to be decided.

Mr. Hines has had the recommendations of the board of railway wages before him for two weeks, but whether he has been able to reach a decision in the rush of work incident to the threatened coal strike has not been revealed. It was agreed that when the demands were presented last July that the officials of the railroad administration and the union would confer before the award was made public, which account for tomorrow's meeting.

It is considered certain that the union's request for a general wage increase will be refused.

PERSHING PLANS TOUR OF INSPECTION

WASHINGTON, Oct. 28.—General Pershing announced today he was planning a tour of inspection of the war industries built up during his absence in France for the purpose of formulating recommendations to Secretary Baker as to what portion should be maintained against another emergency. His trip will take him as far as the Pacific coast and while away he will visit his home in Missouri.

The route and time of departure have not been fixed. General Pershing expects to appear before the congressional military committees during the current week.

The general has already prepared recommendations dealing with the re-organization of the army and other phases of the military establishment including the question of increased pay for all ranks to meet the high cost of living.

SUGAR GROWERS WANT HIGHER PRICES

New Orleans, La., Oct. 28.—Resolutions favoring the obtaining of a higher price for sugar this season than last were adopted today at a meeting here of the American Cane Growers' association. The resolutions also favored negotiations with the sugar equalization board for a higher contract price should the board be granted authority by congress to handle this year's crop.

MILK PRODUCERS' TRIAL

Chicago, Oct. 28.—Testimony for the defense in the trial of eight officials of the Chicago Milk Producers' Association on a charge of conspiracy to fix the price of milk ended suddenly today and it was believed the case would go to the jury Thursday.

Charles H. Potter, president, and Willis J. Kittle, secretary of the organization were the last witnesses.

PLANNED TO KIDNAP EDESEL FORD

TOLEDO, O., Oct. 28.—Statements made by a private detective that he had discovered a plot to kidnap Edsel Ford, son of Henry Ford, and hold him for \$200,000 ransom led to the arrest her today of four men. The detective gave his name as Floyd Gray, and he said he came to Toledo from the east in connection with strike disorders and became aware of the plot while stopping at a local hotel. The prisoners are Richard Ramsey, San Francisco; Eddie Cole, alias Kinney, Louisville, Ky.; Joseph Fisher, New York City, and Claude Cameron of Toledo.

Gray said Kinney revealed the plot to seize young Ford and imprison him in a house in Mount Clemens, Mich. During plans for the kidnapping, he said.

BARON AVEZZANA NAMED ITALIAN MINISTER TO U. S.

Gives Out Statement Before Departure to America.

ROME, Sunday, Oct. 26.—(By The Associated Press)—The appointment of Baron Romano Avezana as ambassador to the United States is considered a noteworthy political choice. He had already been named in 1917 as ambassador to Russia, but he did not go to Russia because of the fall of Kerensky. Later he was sent to Greece.

Speaking with The Associated Press just prior to his departure from Rome, Baron Avezana said: "I do not hide from myself the grave responsibilities connected with the mission entrusted to me. The Adriatic problem deeply moves the Italian people and rightly so. Its protracted discussion has hindered the process of mutual understanding between America and Italy, which was increasing as a natural result of the war."

"Our general impression here is that the time has now come to close this quarrel, which must be solved, taking into account that it might have graver consequences here perhaps even than abroad. Therefore, we hope that the questions of Fiume and our eastern frontier will soon be settled according to national aspirations. Once this element of discussion is removed, I am convinced that we will enter with the United States on a period of cordial and fruitful collaboration."

"For this it is essential that the two peoples know each other better. Undoubtedly the American people have an incomplete notion of what the new Italy is and do not thoroughly realize what an indispensable factor she has been in the victory, or know the greatness of the effort made by her."

"Fortunately no people more than the Americans are more anxious to be just in their judgments."

"My policy therefore is to promote an intimate knowledge between the two peoples. The Americans already know the Italian people are industrious workers. They need to appreciate also Italian culture and social evolution."

"America needs to be put in a position to measure more exactly Italy as an essential element in the future European settlement. She needs also to persuade herself that Italy is among those who have the elements to overcome the crisis sooner because of the solidarity of her economic structure and also strength coming from her people's capacity for work."

"The Italians must be prepared

14 Lives Lost When Lake Steamer Sinks

MUSKEGON, Mich., Oct. 28.—With fourteen known dead and six or more missing, only time can bring an accurate count of the toll of the great seas which early this morning bodily lifted the Kresby passenger steamer Muskegon, formerly the City of Holland, and smashed her to pieces on the piers at the entrance to Muskegon harbor. The list of dead is being added to almost hourly.

The steamer, a side wheeler, bound from Milwaukee after outriding a night of gale, made for the harbor in the early morning darkness but was struck by Captain Miller to have struck the bar at the entrance. The wheel paddles jammed in the sand, checking headway and the great combers threw the great ship about and buried her upon the pier. There she hung momentarily pounding into wreckage and then slipped off into the deep channel, going down in fifty feet of water. The vessel lies a storm torn tangle of steel and splintered wood, effectually blocking the harbor entrance.

Fifty of the 72 passengers and crews guided to safety by a single flashlight in the hand of a coast guard, were tonight known to have been saved from the vessel. It was feared several were caught between decks. Survivors, most of whom escaped only in their night clothing, were being cared for by the Red Cross, while in the city morgues lie the bodies recovered.

DRY ENFORCEMENT ACT PASSED BY SENATE TUESDAY

Prevents Sale of Beverages Containing More than One-half of One per Cent.

PEACE TREATY SIDETRACKED

WASHINGTON, Oct. 28.—The senate passed the prohibition enforcement act over the president's veto today and made immediately effective machinery for preventing sale of beverages containing more than one-half of one per cent alcohol. The vote was 65 to 20 or eight more than the necessary two-thirds majority. While there was a wrangle over taking up the measure in place of the peace treaty which had the right-of-way there never was doubt as to how the senate stood. It was overwhelmingly "dry" like the house which repassed the bill within three hours after the president had vetoed it.

Before congress at 3:40 o'clock finally clinched enactment of the enforcement law there came from the white house the announcement that the war time law which was put into effect after the cessation of hostilities would be annulled the moment the senate formally ratified the German peace treaty.

It was the most definite of all official or semi-official statements bearing on the war time act. Prohibition leaders were plainly disturbed by the news for they had counted firmly upon the country reaching the effective date of constitutional prohibition—January 16, 1920—without re-opening of saloons.

Despite the clamor set up by wet and dry forces, senate leaders said they would proceed with consideration of the treaty as executive senators who have taken an active part in the prohibition campaign branded as unfair and absurd, reports that they would delay the treaty simply to keep the liquor traffic from getting a foothold in the comparatively short period remaining before the country will go dry for good.

Formal denial was issued from headquarters of the anti-saloon league that its officers would take part in any movement calculated to delay the treaty. League officials stuck to the opinion that it would be necessary to first ratify the Austrian treaty before lifting the war time prohibition ban which was said to have been the ruling of Attorney General Palmer and they declared their position was not altered by the fact that President Wilson was prepared to cut thru legal doubt and wipe out a law the necessity for which he believes to have passed.

With today's action by the senate the department of justice is ready to deal with any offenders against the drastic provisions of the new act. At best, heretofore, prosecutions were more or less haphazard, but the new law gives ample means of breaking up the traffic.

So drastic is the enforcement act that a man, for instance, may be fined or put in jail for displaying a picture of a brewery or a keg, but his right to store liquor in his own home for his own use stood up against all attacks in committee and both houses of congress.

Warning went tonight to dealers selling two and three quarter per cent beer without apparent risk heretofore, that the new law fixed one-half of one per cent as the legal limit of alcoholic content.

Law abiding citizens, churches, civic organizations and welfare societies were summoned tonight

STRIKE VOTE IS UNAUTHORIZED

WASHINGTON, Oct. 28.—Strike of trainmen in the Chicago switching district, called by local union leaders for Thursday unless certain wage demands are granted "in full," would be "wholly unauthorized and without the sanction of the Brotherhood of Railway Trainmen," it was said here tonight by W. G. Lee, president of the brotherhood. The proposed strike, Mr. Lee said, "nothing more than an attempt to discredit the Brotherhood of Railway Trainmen."

Mr. Lee said two officials of the brotherhood attended the meeting said to have been held Sunday night and at which it was announced by local union leaders the strike was decided on. These officials, however, Mr. Lee said, had no knowledge of any decision to call a strike.

INTERNATIONAL LABOR CONFERENCE WILL OPEN TODAY

Thirty Countries Represented in Great Parley.

WASHINGTON, Oct. 28.—The international labor conference will convene at noon tomorrow in Washington. Sessions of the conference are expected to continue for practically a month and to lay the foundation of a world wide movement for improvement and standardization of workers.

Altho the legal status of the gathering still is held in doubt in some quarters, members of the organizing committee and officials of the department of labor were agreed today that the delegates more than thirty countries should proceed to organize some sort of a conference and discuss the agenda prescribed in the peace treaty.

A plan has been proposed which is expected to reconcile technical legality with the practical necessity of holding the conference at this time without postponement. In opening the conference Secretary Wilson will describe the assembly as the "conference in the process of being organized." It was said today. Thru this interpretation, it was pointed out the provision of the treaty calling for the opening of such a conference on October 29 will be fulfilled and advantage will be taken of the power of the United States as "organizer" of the conference to admit nations which have not ratified the treaty.

The organizing committee met with Secretary Wilson and advisers on international law today, and an agreement was reached as to the policy to be pursued in the absence of objections from delegates.

Should the question of validity be raised it would be determined by the conference itself. The program tomorrow will consist of an address by John Barrett, director of the Pan-American Union, report of Arthur Fontaine of France, committee chairman, provisional adoption of draft standing orders and election of a committee on credentials.

The question of the admission of Germany and Austria also will be submitted tomorrow. Following the conference session, separate meetings of delegates representing governments, employers and workers will be called for the purpose of choosing nominees for officers of the conference and the secretarial board. The election of officers and the report of the committee on credentials will take place Thursday.

The conference will settle down to work Friday, taking up first the question of the eight hour day and the 48 hours a week, according to present plans. The opening of the meeting of the international federation of trade unions was postponed again today owing to further delay in the arrival of W. A. Appleton of England, president and other officials. No date was set for the meeting.

KING ALFONSO DINES WITH LLOYD-GEORGE

LONDON, Oct. 28.—King Alfonso today had luncheon with David Lloyd George, the British prime minister and some members of Mr. Lloyd George's cabinet. Afterwards the Spanish monarch placed a wreath on the cenotaph for the British soldiers who fell in the world war. The wreath was entwined with the British and Spanish colors and bore the inscription "Tommy Conrades in the British Army. Alfonso XII, Colonel of the Sixteenth Lancers."

During the afternoon Alfonso paid a private visit to the Spanish club the membership of which comprises South Americans and Spaniards. Tonight with Queen Victoria, he attended the theater and tomorrow will go to New Market to see the running of the Cambridgehire handicap, one of England's classic races.

MAKE FINAL PLANS FOR DEALING WITH STRIKE OF SOFT COAL MINERS

Definite Understanding Reached at Cabinet Meeting—Momentous Meeting of Union Chiefs Today.

WASHINGTON, Oct. 28.—How to deal with the soft coal strike, in event the miners, ignoring President Wilson's command to stay on the job, walkout Friday night, was definitely agreed upon today at a two hour meeting of the cabinet. The plan of action was not disclosed, but it is known that the cabinet stood as one man for protection of the rights of the public which would suffer with the closing of the mines.

Secretary Lansing, who presided brought word from the meeting that the situation was not hopeless. All day the belief had grown that the international executive board at its meeting tomorrow would postpone the strike at least.

Mr. Lansing would not say if any facts had been laid before the meeting to justify hope of averting the strike. Secretary of Labor Wilson, familiar with the ways of miners thru long service as an officer of their national organization, said it might be several days before a decision was reached by the executive board at Indianapolis.

"We still have the functions of a mediator to perform," he said, in announcing that no strike developments had been brought to his attention.

Most officials had thought that Acting President John L. Lewis would make immediate announcement of the reply of his men to President Wilson's letter. According to the view held by Mr. Wilson, however, there may be no answer until the very last moment. An eleventh hour decision to postpone or cancel the strike would not be surprising it was said but there was some doubt here as to whether word could be sent to the men in time to keep them at work.

The railroad administration it was learned today, is putting forth every effort to move the coal already mined to districts where present stocks are running dangerously low. Meantime government agents were taking a quick census and trying to find out how long the stocks on hand might last. In the absence of an authoritative statement, stock reports were conflicting, but it was said that union estimates of enough to supply demands for thirty days were not far wrong.

The government is ready for the worst, but is hoping the worst will not happen, firm in the belief that the miners will respond patriotically to the president's appeal and keep the mines running while negotiating a new wage agreement, was the summing up tonight of a government official in touch with the situation.

"Everything depends on what is done at Indianapolis."

Union Chiefs Meet. Indianapolis, Ind., Oct. 28.—With "no change in the situation" reached at United Mine Workers of America headquarters leaders were preparing tonight for a momentous conference tomorrow of its executive board, district presidents and scale committee. Acting President John L. Lewis arrived today from his home in Springfield, Ill., but had little to add to sentiment, but it was said that union estimates of enough to supply demands for thirty days were not far wrong.

The condemnation of the proposed walkout by President Wilson and his suggestion that a tribunal be appointed to find a basis of settlement of the disagreement between workers and employers with coal production continuing meanwhile, held on charms for the union leaders. Echoing the point made by William Green, secretary, treasurer of the organization, Mr. Lewis said that the national executive's plea—made for war-time prohibition had passed because the emergency had ended—expressed exactly the union's attitude toward its war time wage contract.

"There is no further use for war time prohibition, according to the president," said Mr. Lewis. "Neither is there further use for the war time Washington wage agreement. We therefore resent the imputation that the strike is illegal."

The suggestion that work be continued pending appointment

Many who have sold town property at what seems a high price when they transferred are beginning to realize that they have nowhere to go, that there are few houses vacant and for rent and that others want a good full price as well as they.

One of the important features of the seventh National Trade Convention to be held at San Francisco May 15 and 20, 1920, will be the conference of American traders in foreign markets. But a more interesting problem today is the question of securing enough goods in many lines to keep business going at home.

Some of the British trades unions have decided to withdraw their request for a shorter week than 47 hours until an opportunity is given for an investigation of the results of such an innovation, showing that leaders have begun to realize that the real basis of the reduction of hours is greater efficiency.

Most people in this state who have given attention to the proposed initiative and referendum propositions to appear on the advisory ballot next week oppose the measure, as one that may be easily abused. In some states where they have been in force they have been made ridiculous. It is claimed the propositions that have been presented in this state will not work to the public advantage and perhaps their backers do not propose that they shall.

A DOCTOR TO OLD SHOES To reduce the high cost of walking, the United States Department of Agriculture has become a doctor to old shoes—not a general practitioner, but a consulting specialist both in diagnosis and treatment. One of its most recent prescriptions, evolved by the Bureau of Chemistry, has to do with the pair of last winter's shoes that, about this time of the year, are pulled out of the closet all full of mildew and looking hopelessly done for. The prognosis is that the shoes are not fatal, but that the shoes are good for a month or two anyhow. The treatment is: Brush or rub, applied externally; castor oil, small quantity vigorously rubbed in; sunshine, one or two days.

DEMAND FOR RABBIT SKINS In recent years several kinds of fur, formerly of so little value as to offer no inducement to the trapper, have been raised in price and consequently collecting them has been made profitable. Rabbit pelts, which are extensively used by hat makers, are among these products. One eastern concern has announced that it will need 10,000,000 rabbit skins during 1919 and 1920, and it desires as far as possible to secure them from American sources. This is an indication of a market which should interest many a farmer boy. This fall and winter dried, cased rabbit skins will probably bring a reasonably good return. They are sold by the pound which will contain seven or eight skins. Many farm boys can readily acquire, in the course of the winter, large numbers of skins which will net them a tidy sum and, in addition, they will have the pleasure of trapping experience. The United States Department of Agriculture will supply any farmer with the names and addresses of possible purchasers of rabbit skins and other pelts.

THE ISSUE

Very few men, speaking comparatively, hold cards which entitle them to work in coal mines and draw the pay of miners.

Fewer men hold stock in coal mines and are privileged to participate in profits arising from the coal business.

Only a small proportion of our citizens belong to the railroad brotherhoods and receive the wages of brotherhood men.

Comparatively few citizens have a financial interest in railroad properties and their earnings.

But every mother's son and every mother's daughter of us requires fuel. And every blessed one of us must have food.

Close the mines and cease operating the railroads and the public will freeze and starve. Shut off our fuel and block the movement of food products and there will be no business for anybody but the undertaker says the Springfield Journal.

There is imposed on industries so vital to the needs of the country a moral obligation they cannot escape. It is an obligation resting on everyone engaged in such industries.

As Governor Lowden has pointed out, the issue is plain. It is the duty of essential industry to keep going and to arbitrate differences that arise.

AMERICAN LEGION VICTORY REUNION

Fifty thousand men who have served in the army, navy or marine corps from Cook and Lake counties have pledged their support in the ticket campaign which opens for the American Legion Victory Re-union and Circus Hippodrome to be held for the benefit of the legion November 8 to 16 at the International theater, Chicago. Because this is the organization of men who have fought for their country and are determined that after their upholding the ideals of the nation through the war these ideals shall not be forgotten, and that the Americanism which was their inspiration shall be backed by a strong body of American men, these members of the posts of the American Legion are doing everything in their power to make of their great re-union and entertainment a huge success. Prominent welfare organizations will

have booths at the show, among them the Salvation Army, the Red Cross drive, the Y. M. C. A. and Y. W. C. A., the Knights of Columbus, the Chicago Babies' Free Milk fund, whose workers will conduct the tearoom; the Fort Sheridan Recall, under the direction of which the work of disabled soldiers at Fort Sheridan will be shown and sold; the Service League for the Handicapped, the Sarah Hackett Stevenson Memorial lodging house, the National Park Seminary day nursery and many others.

In Death of Mrs. Vilura Pierson at Waverly—Three Witness Examined.

After hearing the evidence of Miss Olga Morris, J. R. Bullard and Dr. Paul Allyn the jury sworn to inquire into the death of Mrs. Vilura Pierson returned a verdict that "she came to her death by a gunshot wound from a 22 calibre revolver held in her own hand and done with suicidal intent."

The testimony did not bring any new facts in addition to those published in the Journal Tuesday morning. Dr. Allyn gave as his opinion that the bullet punctured the aorta which was sufficient to cause death.

SPINK ARRANGES PRELIMINARY DETAILS

Mrs. King Appointed Chairman of Women's Committees—Mrs. Heintz to Have Charge of Red Cross Headquarters at Library.

Chairman Earl Spink, in charge of the Morgan County Red Cross Chapter campaign for members or annual roll call, stated yesterday that a number of preliminary details had been seen to and arrangements made preparatory to the opening of the drive next Saturday, Nov. 2nd. The Morgan county chapter includes branches in Alexander, Franklin, Waverly, Litchberry, Concord, Chapin, Meredosia, Woodson, Lynnville and Murrayville.

Mrs. James T. King has been appointed chairman of the women's committees for the four Jacksonville precincts and South Jacksonville. Mrs. F. J. Heintz, who acted as cashier during the membership drive last year, will have charge of the Red Cross headquarters which will be located at the Public Library building.

Quite a number of Jacksonville and county residents have evinced a desire to work for the Red Cross during this campaign, and all seem willing to assist in making the drive most successful.

It is stated that the money raised thru the securing of Morgan county memberships will be expended very largely in this county for peace time work. The home service branch of this organization does much good locally.

Tribute to Peace Program

Surgeon General Rupert Blue, head of the United States Public Health service has paid a high tribute to the peace program of the American Red Cross in a statement sent to National Headquarters in Washington. In his statement he urged national support to the program during the Third Red Cross Roll Call, Nov. 2 to 11.

"Very few have an adequate conception of the service rendered by the Red Cross during the pandemic of influenza, a work largely obscured by the activities in France" Surgeon General Blue said. "It is indeed a gloomy picture that comes to ones mind when he thinks what would have occurred in those trying days had it not been for the Red Cross. With the bulk of the nurses on duty with the military forces, the Red Cross stepped into the breach and performed a service for which every American should feel forever grateful."

"When the care of all discharged disabled soldiers, sailors and marines was turned over to the Public Health Service, that department found it difficult to secure nurses. We turned to the Red Cross and it furnished us with highly trained expert nurses with many years experience. "This is only a small part of the Red Cross work. It plans to educate a large number of public health nurses and place one in every town to instruct mothers in hygiene, home sanitation, dietetics and the care of children. All this work will be done in co-operation with the various health organizations now in existence. Such a program is of vital importance at this time and I take pleasure in commending it to every person interested in the control of preventable diseases and desirous of promoting human health and welfare."

DON'T NEGLECT YOUR BREAKFAST

The Fear of Indigestion Often
Prompts One to Start the Day
Wrong—Eat What You Like,
Take a Stuart's Dyspepsia Tab-
let and You're Safe.

Breakfast offers many of the
most savory dishes of all the
things we eat. And yet more peo-
ple than otherwise go without
breakfast save a roll and cup of
coffee for fear of indigestion. If
you like a fried egg, or some
buckwheat or sausage for break-
fast go to it and follow with a
Stuart's Dyspepsia Tablet. You'll
have no trouble. The average
person who neglects breakfast will
be hungry before noon. Most
men make to kill the appetite,
or munch on something to carry
on till lunch time. An empty
stomach under these conditions is
not storing up energy, but on the
contrary, is susceptible to many
influences that may work hard-
ship for the next meal.

It is advisable to eat three
good meals a day and digest
them. If the stomach seems to
be weak, to help it or give it as-
sistance is the rational thing to
do. Try a good breakfast and
follow it with Stuart's Dyspepsia
Tablets and you'll soon learn that
regularity of meals follows a nat-
ural tendency, not an acquired
one. You will find Stuart's Dys-
pepsia Tablets on sale in almost
all drug stores throughout the
United States and Canada.—Ady.

He first asked Rev. T. H. Tull, pastor of Grace church, to speak.

The reverend gentleman proved to be an earnest and forceful speaker and held the attention of his audience closely the whole time. He portrayed in a vivid manner the needs of the starving millions across the sea and made an earnest plea for help.

His remarks were heard with close attention thruout.

Rev. W. H. Marbach, pastor of State Street church, spoke from a document he quoted some startling facts.

Nearly a million children are starving and 75,000 are orphans while many more are fatherless.

The reverend gentleman told in glowing terms the ability of this country and the crying need over there and of our duty to the sufferers. He said he had wanted several new books but would try to get along without them and give to this cause. Every dictate of humanity prompts a generous response to this urgent appeal.

Mr. Reeve said some men turned down the request saying they had done all they could and yet he said he doubted if such persons had given one per cent of their income to good causes. It is our religious duty to respond to this appeal if we claim any humanity in our hearts.

Why Money is Needed

Nearly one million helpless, innocent children are slowly and surely starving; suffering untellable agonies of hunger and exposure. Seventy-five thousand of them are orphans and many more thousands are fatherless and the mothers are unable to provide for them.

Almost one million children robbed of their birthright! For years thousands of them have wandered, refugees from contending armies. None of them have known a full meal in five years. They can't remember what milk tastes like.

Think of the long, dreary days, with hunger pangs ever gnawing at their little vitals; think of the terrible endless nights, spent alone and unprotected in the fields or on dirty city streets. Think of the lack of loving kindness, of the sickness and suffering and the heartaches of myriads of little tots "out on their own" in a world gone mad.

Could but a part of the sufferings of the past five years be summed up in words, the world would stand aghast. Surely the heart of the loving God must be sorely wounded at what these little ones have been thruout.

Here is a situation where race, creed, nationality—nothing counts except humanity. America can never clear herself if she permits these conditions to continue. These children must have food, they must have clothing, they must have decent places to live! And they must have a little of the care and loving kindness that is the birthright of every child born into the world—the child of your heart and of these numberless Jewish children!

Thousands of them unable to get into the already overcrowded orphanages, beg on the streets by day, and sleep on the streets by night—and there, but for the grace of God, would be your own little girl or boy!

Men and women and children—are dying of starvation and disease in war-stricken Poland, Lithuania, Russia, Galicia and Palestine.

Mothers wander crazed, emaciated, homeless, with starving babes, piteously beseeching at their barren breasts; children weak and skeleton-like, lie famished, dying; or dead; thousands upon thousands of them, in these afflicted lands beyond the seas.

Their suffering is worse than death—it is the lingering torture of starvation; the piteous tragedy of emaciation; the horrible waiting, in agony of hunger, for the grim reaper to end their suffering. WILL YOU HELP TO SAVE THEM?

GOT HIS MONEY'S WORTH.

Five years ago Tuesday Rev. Myron L. Pontius married a couple in Peoria where he was then residing. At that time the groom gave him a check for \$9.98. Tuesday on the fifth anniversary of the marriage Mr. Pontius received a letter from the groom with another check enclosed for the same amount. The gentleman is an eccentric man and in his letter he told Mr. Pontius that the marriage of five years ago was a great thing for him and he wanted to show in a measure his appreciation for the minister who said the ceremony.

Humorist's Heart Touched.

If every citizen of America who has been somewhat directly the beneficiary of Jewish Philanthropy should now come forward and help the American Jewish Relief Committee, the necessary funds would be ready tomorrow. They should come forward.—George Ade.

Noted Writer Makes Plea.

The gaunt and famished, the lean and weary, the sick and wounded—they hold their outstretched, empty hands towards us, and beg for help. And we, of all the people in the world, are in the position to relieve them.—George F. Burba.

A Great Preacher's Statement.

Heaven knows we have killed and hated enough because of our differences. Let us now compensate History by a most strenuous rivalry in Charity, "for" says Bacon, "in all things else there is danger of excess, but in Charity there can be no excess."—Dr. Frank Crane.

Children's Friend's Plain Talk.

Despairing fathers forced to sit by while children starve—mothers going mad, as babies die at their milkless breasts—I can feel their despair in their helpless condition. If we don't help to feed them, then we help them to starve. We are responsible for what we don't do.—Nathan Straus.

DRY ENFORCEMENT ACT PASSED BY SENATE TUESDAY

(Continued from Page One.)

by Commissioner Roper to aid the bureau of internal revenue in enforcing the prohibition enforcement law.

Any flouting of the law, Mr. Roper declared, would bring into disrepute the American form of government.

While the bureau is made the agency directing the enforcement of the measure, with the department of justice conducting prosecution on evidence obtained by the bureau's men, responsibility is not confined to federal officers, the commissioner said. State, county and municipal officials are expected to do a full share in stopping and punishing violations and the successful administration of the law, Mr. Roper said, would be measured largely by the manner in which these officials meet their requirement.

Local officers being expected to take the initiative in enforcing the law in their territory, any failure or dereliction to assume their full responsibility will be brought to the attention of the law abiding citizens of the community by officials of the bureau.

Mr. Roper's plans contemplate the organizing of a prohibition enforcement staff which will be devoted entirely to that work and completely dissociate from the tax collection activities of the bureau. There will be a deputy commissioner in Washington, in charge of the prohibition section and deputy collectors in each district with an efficient force of men under them. Pending the organization of this force, employees qualified for the work who can be spared from the tax work of the bureau have been instructed to cooperate to the fullest extent with the public and with local officers.

MAKE FINAL PLANS FOR DEALING WITH STRIKE OF SOFT COAL MINERS

(Continued from Page One.)

and report of an investigating tribunal was pronounced by Mr. Lewis a measure of delay.

"That would mean months of waiting while men ignorant of mining problems studied and tried to solve them," he said. "Meanwhile the miners would be working under the present intolerable conditions."

Other officials of the union agreed heartily with this view. In addition some of them pointed out that the operators would take advantage of the delay to work the mines to capacity, piling up reserve stocks and placing the union at a big disadvantage should the tribunal's efforts come to naught.

Direct negotiation with the mine owners, however, would be welcomed by the union. Vice President Lewis, Secretary Green and members of the executive board were unanimous in declaring that they stood ready "as before to negotiate a wage scale with reservations." They charged that the employers would not negotiate except on conditions which the union men were powerless to fulfill. Authoritative forecasts of the action to be taken tomorrow were almost totally lacking. There was a well defined impression, however that a reply to President Wilson would be outlined, at least if not fully drafted and adopted by the conference as a whole.

people, the greetings of Belgium, a democratic and parliamentary state created by the vote of the popular assembly of 1830 which proclaimed the independence of our provinces. It is a pleasure to recall that many of the provisions of our constitution were taken from your fundamental law, so that at the outset of her career Belgium was indebted to you.

"Our two peoples have fought and triumphed together. The intervention of the American army was the decisive factor in determining the victory. I pay my respectful and sincere homage to the officers, the soldiers and sailors, who fell for a great cause on the battlefields of Europe and in the defense of the seas.

"The hearts of Belgians whom these heroes helped to liberate from the domination of the enemy go out in profound gratitude to the wounded in their name. I address to the wounded of the great war the assurance of our affection and sympathy. I express the gratitude of Belgium to those distinguished American citizens who gave themselves with such a spirit of sacrifice to the task of lightening the sufferings of the Belgian people.

"In this noble assembly, I solemnly thank the members of the Commission for Relief and the innumerable committees that helped it in its admirable efforts. I salute in particular the names, graven forever in our memories of Herbert Hoover and Brand Whitlock.

"May this splendid American nation, so richly endowed by nature, so magnificently served by its people, pursue in the serenity of its power its work of achievement, of culture and of progress."

WILL WITHDRAW TROOPS FROM STRIKE AREA

Indianapolis, Ind., Oct. 28.—Governor James P. Goodrich late today announced that it had been arranged to withdraw the troops from the steel strike area in Indiana and turn over control of the district to civil authorities. He added that an agreement had been reached to leave several former service men in the district as state representatives whose recommendations for handling the situation would be carried out by the county and city officials.

better to tell and understand the dignity and greatness existing in the principles of morality and justice, which makes the ideal side of the American nation forming Americas strength. On the other hand if America is deprived of European markets, her economic life will be congested.

"It was not by chance that from America came the great idea to found the society of nations which gained for President Wilson such unanimous agreement, approval and encouragement. This great historical conception could not have had as its champion the president of the United States if the war had not hastened the situation which was already developing in America, obliging her to abandon her isolation. Already an economic and political solidarity has been created which nothing can destroy.

"It would be of the gravest injury to Italy if she should desert herself from this union or if she participated in its liquidation. To prevent this and guide the policy of my country in the right direction I will consecrate all my forces.

"Nothing will be so welcome to me as to see America and Italy, united in close and sincere friendship, proceeding together towards the material and moral reconstruction of suffering humanity."

REPORT OF EXPLOSION DENIED

Charleston, W. Va., Oct. 28.—Reports that a serious mine explosion had occurred today in Raleigh county West Virginia, were emphatically denied tonight by officials of the state department of mines.

A thorough investigation had been made the department announced and no evidence of an explosion of consequence was found.

ILLINOI LODGE I. O. O. F. CONFERS INITIATORY

Large Number of Members in Attendance—Refreshments Followed Work.

At the regular meeting of Illini Lodge No. 4, I. O. O. F., Tuesday evening the initiatory degree was conferred upon John B. Rayle, the degree staff conferring the degree in an impressive manner.

It is expected that the initiatory degree will be conferred on a class of ten candidates at the next regular meeting and on the meeting following, one week hence, the first and second degrees will be conferred on all candidates eligible in order that they may be given the third degree at the Grand lodge meeting in Springfield during the week of November 17.

It is the purpose of the grand lodge to confer the third degree upon a class of 1,000 candidates from all over the state on this occasion. The date set for this occasion is November 19. The degree will be conferred by the Grand Lodge officers and will be in commemoration of the 100th anniversary of Odd Fellowship in America.

A feature of recent meetings of Illini lodge is the number of applications for reinstatement from members who have dropped from the order. These brothers are being cordially taken back into good standing and active work and fellowship.

There is a spirit of activity pervading the lodge and the interest is shown in the marked increase in the attendance, especially of older members.

Harmony Lodge will hold a special meeting this evening at 7:30 o'clock. Work. Visiting brethren welcome. F. W. Bristow, W. M. John R. Phillips, Secy.

IVAN S. ROSSITER TO ADDRESS MEETING

Big American Legion Meeting Will Be Held Thursday Evening, November 6th—Young Canadian Hero to Be Principal Speaker.

Tentative plans for the big American Legion meeting to be held in Jacksonville have been announced by the committee in charge.

Chairman H. P. Green stated last night that Ivan S. Rossiter, the young Canadian soldier, who spoke a few weeks ago at the Chautauqua has been secured to make the principal address of the evening on the occasion of the big meeting. Rossiter is a man qualified to speak on this subject which deals with facts that are near to the heart of the one hundred per cent American. Rossiter is a forceful speaker and can present the subject in a way which all will understand. He was overseas for many months with the Canadian forces, was captured and a prisoner behind the German lines for many weeks. The trials and experiences which he underwent at that time were described by him in a vivid way at the time of his chautauqua address here. Rossiter is enthusiastically for the American Legion. He is a student of affairs and understands what the Legion stands for and what its organization means in the life and in the history of our nation. It will be a privilege which none should miss to hear this gifted young orator and world war hero speak on the occasion of the big gathering to be held in Jacksonville by the local post of the Legion.

It is also tentatively agreed upon to hold the meeting on Thursday, November 6th. A special musical program has been arranged for the event and several other numbers will be announced later when definite arrangements have been made as to the place, time and exact program.

The committee has also announced that a special orchestra for the evening has been secured so that suitable music will be provided.

GRADUATION TO BE AT CHURCH FRIDAY

Brown's Business College Class Will Receive Honors at Congregational Church.

The graduating exercises of the Class of 1919 of Brown's Business College will be held at the Congregational church Friday evening, November 21, and promise to be of more than ordinary interest. H. E. Read, president of the Brown chain of schools, will give the graduating address. The diplomas will be presented by W. Howland, manager of the college, will give the class address. A program of the other events of the evening has not been given out but it is anticipated that it will prove one of the most enjoyable of the college graduation exercises. The music for the occasion will be furnished by the French Quartette of St. Louis.

The names of the members of the graduates follow:

Louise Anderson, Waverly; Mildred Brown, Waverly; Laura Buckley, Petersburg; Verlin Evemeyer, Meredosia; Sylvia Piper, Winchester; Herschell England, Girard; Faye Keener, Murrayville; Vera King, Palmyra; Clair Rose Stork, Beardstown; Aliene Turner, Roodhouse; Marie Zerenburg, White Hall; Maggie Moore Pearl; Ernest Nortrup, Bluffs; Nancy Stansburg, Alexander; Amelia Middendorf, Maria Saunders, John Dollard, Helen Donovan, Alicea Fitch, Fannie Motschman, Madea Brogdon, Estelle Bingham, Ruth Stubblefield, George Hugenberger, Eva Mason, all of this city.

On Thursday evening of this week, at the college, the student body will give a grand Carnival and Masquerade dance for the graduating class. On account of the limited space the admission will be by invitation only.

REVIVAL MEETINGS AT FIRST BAPTIST CHURCH

Evangelist Yule and Wife Have Large Audience

Rev. Mr. Yule was at his best Tuesday night on "The Hobbled Church." With many years of experience as pastor and evangelist he was able to peak authoritatively.

The hobbled skirt was made a striking illustration of the hobbled church.

The speaker said that some in the church had gained riches, but they had lost their spiritual power—hobbled by their riches.

Too often there is little or no difference between the lives of some church members and those who are out and out sinful—hobbled by their world-lives.

With some it is cards, cards, dancing, dancing, society, society—hobbled by the game and the dance.

What of the church member who never prays in the home, who never returns thanks, who never speaks to another about becoming a Christian? Much of the feebleness of the church is due to hobbled lives.

Rev. Mr. Yule is a deep, logical thinker. He appeals to people calmly and from a reasoning point of view. In his presentation of the Gospel he gives his hearers proof of his assertions, telling them how to live that they may attain the highest standard of Christian living.

Cottage prayer meeting Wednesday morning at the home of Mr. and Mrs. Anderson on West Street; Mr. and Mrs. Spies on South Clay avenue.

Services at the church 3 p. m. and 7:30 p. m. Afternoon: "The Second Coming of Christ." Evening: "The Greatest Detective in the World." You will miss two great services if you miss these.

BLOOMINGTON WILL PLAY HERE NOV. 27

High School Game Arranged for Thanksgiving Day—Should Prove Big Event for Local Fans—Carrollton Here Next Saturday.

Turkey Day will be a red letter day as far as football fans are concerned for it was announced yesterday afternoon by high school authorities that Bloomington High gridiron warriors will be here Thanksgiving and will meet the local football aggregation for honors in the season's final match.

The teams are evenly matched and the game should be a hard fought contest from the start to the timer's final whistle. Thanksgiving Day football games have always been popular in Jacksonville and are always attended by a large crowd of fans. In fact, no Thanksgiving is really complete without a good scrappy gridiron struggle.

Jacksonville High plays at home again next Saturday when Carrollton comes here for a game. A week from next Saturday, Nov. 8th, the local team will have another game here, having as their opponents the strong Quincy High team. After the 8th, however, the locals do not have another home game until Thanksgiving Day.

SOCIAL SERVICE LEAGUE DIRECTORS

Held Meeting Tuesday Evening—Large Attendance And Resume of Work is Given.

A large attendance marked the meeting of the directors of the Social Service League at the Public Library Tuesday evening. President Perrin presided and an interesting resume of the work was given which showed that the league was very much alive and doing good work.

Mrs. Viola Cohick the superintendent made an earnest plea for clothing, shoes and underwear for children from 10 to 15 years of age. Mrs. Cohick also spoke of the large amount of truant work that is to be done.

A. C. Rice, treasurer, made his report and an interesting report was made by Mrs. James W. Brown, chairman of the relief committee. Mrs. Brown referred to the great assistance received from other organizations which had made over clothing and gathered garments and turned them over to the league.

There is a great deal of work for Mrs. Cohick that takes her to all parts of the city. The hope was expressed that some one might furnish her with an automobile for a part of each day to assist in the work. Mention also was made of the meeting of the State Conference of Social Work here in October 1920.

President Perrin announced the appointment of the following committees.

Finance and Membership—A. B. Williamson, chairman; Mrs. C. H. Russell, Dr. Grace Dewey, Mrs. E. P. Cleary, Rev. W. E. Spoons, Miss Marian Fairbank, Rev. Father Formaz.

Relief—Mrs. James W. Brown, chairman; Miss Winifred Weckerle, Mrs. W. J. Winchester, Mrs. John Buckley, Miss Lucy Catlin, Miss Emma Doying, J. Edgar Martin, Fawcett, chairman.

HIGH SCHOOL OBSERVES AMERICANIZATION DAY

Special Music and an Address by Rev. Tull Marks Day at David Prince.

"Americanization Day" was observed at the Jacksonville High School Monday afternoon at assembly hour by special exercises. Miss Lydia Hunt opened the program with a solo.

Rev. T. H. Tull, pastor of Grace M. E. church was the speaker of the afternoon and took for his subject "The Life of Theodore Roosevelt." The address was most interesting and brought to the attention of all the strong characteristics of Roosevelt and how his life could be adapted to the idea of "Americanization Day."

Another feature of the afternoon's program was the duet given by Misses Parker and Hunt.

DURBIN

Richard Oxley has gone to Denver, called there by the illness of his brother-in-law, Howard Hauser.

STATE EDUCATIONAL OPPORTUNITY OFFERED

Employees at Jacksonville State Hospital Enjoy Privilege of Attending High School Classes Held by Special Instructor at the Institution.

An opportunity is now offered the bright and industrious young man or woman to work their way through high school and even through college at the Jacksonville State Hospital. While they work the State of Illinois furnishes them with board, clothes and spending money. The Department of Public Welfare believes that in order to make progress that ought to be made in many institutions it is incumbent upon them to devise ways and means whereby they will be able to secure better trained help, owing to the scarcity of properly trained help in the institution. They conceived the idea of establishing a High School in different State Hospitals and the Jacksonville State Hospital was selected for a trial.

BEAUTY SECRETS!

Where she gets her good looks, her healthy skin, her pink cheeks, is known to every one.

Because it is apparent that it is due to cosmetics, paint and powder. But the true womanly beauty comes from good health, and this good health is a woman's secret.

Health comes with good physical machinery and good spirits, active digestion. A body free from pains and aches comes with tonic known for over fifty years—the best "temperance" tonic and nerve for woman—namely, Dr. Pierce's Favorite Prescription. can be obtained in any drug store in liquid or tablet form, and 10c to Dr. Pierce Invalids' Hotel, Buffalo, N. Y.

Cleansing of the intestinal tract important. Take castor oil or select a vegetable pill. Such a pill is composed of May-apple, leaves of aloe, root of jalap, and made into tiny sugar-coated pellets, to be had at every drug store. Dr. Pierce's Pleasant Pellets.

Registered nurses must at least have a high school education. Occupational Therapy teachers must have a high school education and two years in College. Psychiatric nurses must be high school graduates. Welfare workers must be high school graduates and have two years in college or its equivalent and in many other positions in the state service it is absolutely necessary to have a high school education in order that they have the proper foundation to build upon. By giving this high school course an opportunity is offered to employees to work their way up to the best paid positions of the state service. Employees who take the course will naturally become imbued with the spirit of progressiveness and with a sense of loyalty which is bound to bring success to themselves and likewise the institution.

The course is affiliated with the Jacksonville High School through the courtesy of Mr. Perrin, superintendent of the city schools, who has secured a most capable and experienced young lady in Miss Elsie Breitkreutz, a graduate of the Wisconsin University, who has had nine years experience as a teacher. The work in hand is fairly well under way and success is assured.

Notes.
Miss Lucy Catlin has returned from the State convention of Charities and Corrections held at Decatur, Ill. Miss Catlin reports a very interesting meeting and a large attendance. It was decided to have the convention meet in Jacksonville next year.

Miss Josephine Hayden on her return home from Decatur is visiting the homes of some of the patients who have been committed from Sangamon county.

Dr. McKelvie, State Institutional surgeon, was at the institution yesterday.

Employees, Mayme Ellington and J. H. Olroyd are being operated on.

Miss Anna Travis and Eva Lowery are on vacations.

Mrs. Margaret Toomey, Mrs. Crank and Jessie Litter are on the sick list.

Miss Archie Smith and Audrey Donohue left the institution yesterday.

YATESVILLE

Mr. and Mrs. Henry Means and granddaughter spent Sunday with Billy Smith and wife near Sinclair.

Clarence C. Yancy of Bloomington is visiting several places in Texas. He first went to Ft. Worth, then to Dallas. He intends to be gone about ten days.

Saturday evening a large crowd of friends and neighbors met at the home of Henry Yancy and brought with them oysters, and at a late hour refreshments were served. Games and various pastimes together with music, made the evening pass quickly.

Mrs. John Henderson and children, Mrs. Charles Edwards and children visited Thursday in Ashland with Mrs. Jack Brown.

William Collins and family of Virginia, spent Sunday at the home of Mike Cashin.

Dave Tignor went to Jacksonville one day recently to attend to some business matters.

Mrs. Wood visited her daughter-in-law, Mrs. Almus Wood, Thursday in Philadelphia.

Miss May Moore spent Sunday with her mother in Ashland.

NOTICE OF FINAL SETTLEMENT

In the Matter of the Estate of John L. Thorndike, Deceased. Notice is hereby given, That I, the undersigned, executrix of the Last Will and Testament of John L. Thorndike, deceased, have caused my final report and account as such executrix to be placed on file in the office of the Clerk of the County Court of Morgan County, Illinois, and that I shall apply to said Court on Monday, the 10th day of November, A. D. 1919, at 9 o'clock a. m. of that day, or as soon thereafter as I can be heard, for an order of approval of said report and account, and for my final discharge, at which time and place all persons interested can appear and show cause, if any they have, why such order and discharge should not be granted.

MARY M. THORNDIKE, Executrix.

LITERBERRY MISSION CIRCLE TO MEET

Mrs. Warren Daniels to be Hostess to Members of Circle Friday Afternoon—Rev. W. R. Johnson at Baptist Church Sunday—Other Items.

Literberry, Oct. 28.—Mr. and Mrs. George Dunnahan of Oklahoma City, Okla., are being entertained at Orchard Place this week by Mr. and Mrs. J. A. Litter.

The Literberry Baptist Mission Circle will meet on Friday at "Chestnut Hill Farm" with Mrs. Warren Daniels. The new study book for the 1919-1920 term is "A Crusade of Compassion." The Junior book is of a Chinese boy called "Mook."

Work on the Jewish Relief fund started Monday morning in our village and vicinity. We expect to see quite a sum raised by our people, as they have never been called quitters in any respect, but always go over the top in a good cause.

Rev. W. R. Johnson of Jacksonville preached at the Baptist church on Sunday morning from this Scripture—Matthew 25, 25 to 40. The sermon was an appeal to the congregation in behalf of the great suffering of the Jewish people, in regard to sending them relief; each one of us must feel the responsibility of helping.

At the close of the Sunday School the superintendent asked Rev. Johnson for a talk. He replied by giving the school this question to be thought of and answered to themselves, during the next two weeks. "Is the religion of Jesus the greatest joy in your lives, or are other joys as dear or dearer to you than the joy of Christ in the heart?" During the morning service, Mrs. W. R. Johnson sang "One Sweetly Sings the Thought" in a very impressive way. Mrs. Durrell Crum playing the piano accompaniment.

Mr. and Mrs. Jesse Litter spent last week at Oakdale with Mr. and Mrs. Arthur Litter.

Mr. and Mrs. Robison of "Seven Gables" are proud of the baby daughter who came to live with them last Sunday.

Mrs. C. A. Beavers expects to go to Hopkins Mission on Tuesday to be present at the marriage of her brother.

Some of our people went fishing and nutting last Thursday.

throat. It was national gathering and many eminent men were there and many things were discussed adding to the stock of knowledge of all present. He went thence to New York where at the College of Surgeons there was another gathering and special attention was given to standardization of hospitals of less than one hundred beds. This was also a gathering of great importance calling together eminent men from all over the land. The question of standardization is to have special attention next year.

PEOPLE CALLED TO SEE IF TRUE

Mrs. Tindal's Recovery Astonished Those Who Knew Her Condition.

"My recovery since taking Tanlac has been so remarkable that many people who heard about it didn't believe it, and called on me to see if it was true," was the statement made by Mrs. Melvin Tindal of Glasford, Illinois, when she called at Sutcliffe & Case's Drug Store, in Peoria, Ill., a few days ago.

"I couldn't get Tanlac in Glasford, and I've come twenty miles over here to Peoria to get it," continued Mrs. Tindal, "I'm as well and happy as when I was a girl, and my work taking care of five children and a seven room house is just like play for me now. "Not a single day passed for twelve years that I didn't suffer. I had stomach trouble so bad that nearly everything I would eat soured on my stomach and caused gas to form and rise up around my heart so I thought it was going to stop my heart. I suffered intense pain from cramps in my stomach, and after every meal I would belch for hours. I fell off in weight until I looked like a skeleton almost and could hardly drag myself around. I was actually ashamed of my appearance. I was so nervous that life was a burden to me for just any little noise out of the ordinary almost drove me frantic. I seldom had a good night's sleep, and often I was disturbed with bad dreams. About every other day I had an awful nervous headache, and my head would ache and throb terribly, and I would stagger if I tried to get up and walk across the room. I tried every known treatment, and I got so I thought it was no need to take any more medicine for it didn't do me a particle of good.

"But I'm thankful for a good friend of mine and for Tanlac for at last I was shown the right road to recovery, and I'm pointing out this road to other people, and several already have gone that way and found health, too. I can hardly believe it when I look at myself—the way this Tanlac had helped me has been nothing short of remarkable. I'm enjoying health now, after twelve years of misery, and I give Tanlac the whole credit. I've taken eight stomach trouble, indigestion, or with gas forming and effecting my heart. My nerves are calm, and those nervous headaches have stopped troubling me. My appetite is wonderful. I sleep like a child and when I get up I feel fine. I simply don't know what it is to have an ache or pain, and I tell you I'm happy to be that way. Tanlac is the most wonderful thing in the world, and I want you to publish this statement and let the people know what this medicine will do."

Tanlac is sold in Jacksonville by Coover & Shreve, in Meredosta by Mr. R. B. Field, in Murrayville by M. E. Gilbert, in Waverly by the Wyle Drug Co., in Woodstock by The Hoy Pharmacy, and in Chapin by Jno. Onken & Bro. —Adv.

SPECIAL SERVICES CLOSE AT CHAPIN

Church Efficiency and Community Welfare Campaign Conducted By James L. Scholfield—Other Chapin News Notes of Interest.

Chapin, Oct. 28.—Red Letter Day at the Christian church, Oct. 28; closing day of the church efficiency and community welfare campaign conducted by James L. Scholfield. A booster week for home, church and school. Mass meetings for everybody. Attendance at Sunday school numbered 157. Sunday school offering amounted to \$650. At the close of the communion service an offering was taken to the amount of \$509 which cleared all church indebtedness and a liberal sum was given to Mr. Scholfield as an appreciation for his magnificent efforts for good work during his short stay in our midst.

Rev. C. G. Cantrell the pastor will hold a short meeting following the work of Mr. Scholfield and every person is cordially invited to come and enjoy the services.

Mr. and Mrs. H. O. Woodward of Chicago came Sunday for a visit with home folks. A male quartet composed of the following named gentlemen kindly favored the large audience at the Christian church Sunday night with two selections: Prof. C. L. Lettze, John Taylor, Harold Woodward and Montie Funk.

Relief in 20 Minutes

Science added Menthol, Wintergreen and other healing oils, the fumes of which, inhaled, give instant relief inside, where the real irritation is. At the same time the goose-grease and turpentine set up a counter-irritation that draws away the soreness.

Wonderful relief is felt almost instantly by the inflamed lungs, throat and nasal passages.

MEN-THO-EZE is the name of this new-old remedy—a positive relief for the simple ailments and a first-aid for the more serious ones. It relieves the most stubborn cold, usually with one application. Fever subsides, the phlegm is loosened and restful, healing sleep follows.

NEW ZEALANDERS VISITING IN CITY

Are Guests at Home of Mrs. Caldwell on West College Avenue.

Mrs. K. Smith-Phillip and daughter of Wellington, New Zealand are in the city the guests of Mrs. Caldwell on West College avenue, and other friends. They have several books of views of their wonderful land and it is indeed a grand and beautiful part of the earth.

They have geysers there somewhat similar to those of Yellowstone park only they are more in the nature of small volcanoes as one spot which had been dormant many years suddenly burst forth destroying a house and killing several of its inmates.

The place goes by the euphonious name of Whakarewareware and is wonderfully grand with its hot springs, spots belching forth steam and other phenomena. There are only a little more than a million people in the whole island and it is especially a poor man's paradise, the ladies say as it is not cold, abounds in the necessities of life and gives work for every one. Wellington, the capital, has one of the finest harbors in the world. Strange to say, the ladies add, working people there are not satisfied and after getting eight hour days are striking for six which works immense hardship.

A beautiful town is Wangarua, situated on the banks of a river of the same name. There is a railroad which is a marvel of engineering and much of the way has a grade of 350 feet to the mile and three engines are needed for the trains.

The general scenery of the island is wonderfully grand. The city of Wellington is largely on the side of a hill and entering the harbor at night one is lighted with the view, lights up and down the great slope looking like a veritable fairyland. The hills are green and the foliage of the trees is green the year round. The death rate is the lowest in the world. The ladies are contemplating making their home in California though they have not fully decided.

Be Sure You Have the "RIGHT LIGHT"

By the "Right Light" we mean—

Proper illumination—not too much, not too little. It helps cut down your current bills.

The way to get it is to discard every current wasting carbon lamp and every other lamp that is too large or too small and to install in every one of your sockets a

ITEMS OF INTEREST FROM WHITE HALL

Observations of Weather During Recent Years—Sugar Cane Increasing in Favor as Greene County Crop.

White Hall, Oct. 28.—Between 11 p. m. Saturday and 11 p. m. Monday the total rainfall at White Hall was 4.16 inches. It rained practically continuously during the 48 hours, and was of the shower type, unattended by thunder. The general ground surface received more benefit from this rain than from any previous rain period since the drouth of the summer of 1913 and as a consequence the water level of the soil has been raised to something near the normal line that existed previous to 1913, two or three feet in depth. The 1913 drouth was followed by a cold and stormy March, with frequent showers and snows. The leading rain periods in the meantime afforded an interesting study. In June, 1915, there was the sleet storm of the 21st that was so

destructive at Carrollton, the precipitation amounting to 2.16 inches, and on the 28th, seven days later, there was a rain amounting to 2.20 inches. In August, 1915, railroad tracks were washed out and other flood damage done by rain on the 20th and 21st that totalled 4.82 inches. The year 1915 also brought the worst snow blockades in the history of the weather bureau, railroad trains being snowbound for two and three days in December in this vicinity. The December snowfall amounted to 7.5 inches on the 24th, 1.5 inches on the 25th and 3 inches on the 27th and by the end of January the river stages arose to alarming proportions. In August, 1916, there was a five day rain period from the 11th to the 15th totalling 7.80 inches. On the third day it amounted to 2.50 inches, and on the fifth day, 3.50 inches. The next important weather event was the tornado of May 26, 1917, which struck immediately north of White Hall and cleared a path fifty feet wide, but luckily there was no great property damage until it reached Modesto, where it hit the town squarely and inflicted ruin. In June, 1919,

there was some flood damage to crops and railroad tracks to the southeast of White Hall on the 25th, but the rainfall at White Hall amounted to only 0.80 of an inch. During the past week there was delay in farming operations, but finishing work in sowing winter wheat was accomplished to a large extent and the crop is practically all in. Early sown winter wheat is now 2 1/2 inches high and this wheat was thought to be in danger of fly until the heavy rains of Sunday and Monday. To the west the farmers have been delaying wheat sowing on account of the fly danger. There have been isolated cases of corn shucking, but shucking and cribbing will not be on in full blast until the middle of November.

Growing Sugar Cane.
A patch of sugar cane was grown by Lee Morow this past season on the land of Mrs. Laura Pritchett, southeast of town and the outcome has induced other farmers to give the crop a tryout next season, the result being that there will be a considerable acreage of sugar cane in this vicinity next year. Sugar cane has been grown successfully further east on the Macopin county line and Ed Lynch has a sorghum mill located on Birch creek, about nine miles east of White Hall. The local crop was hauled to this mill and made into pure sorghum that is valued at two dollars per gallon. It is thought that next year's acreage near White Hall will be sufficiently large enough to induce Mr. Lynch to bring his mill to the immediate neighborhood. The cane is grown with corn, and its growth is remarkable. It thrives best on thin land and its value figures with that of corn. As a result of the experiment all this tract will be devoted to sugar cane the coming season.

Since September 1918 Miss Louise Meisenbach has kept a record of two Jersey cows, and she shows that they produced 340 pounds of butter in thirteen months, besides allowing for the usual amount of milk used by the family. She is anxious to see a test of the Hull Jersey herd recently brought here from Oregon. The city reservoir has been restocked with a consignment of fish from the government hatchery at Havana, the government fish car recently passing thru on the Burlington and leaving six cans in charge of Frank Ross, president of the White Hall Fishing Club. They were immediately conveyed to the reservoir by Lloyd R. Winn and deposited therein. There were two cans of croppie, two of perch, one of bass and one miscellaneous.

The reversion back to run time last Sunday caused inconvenience to only one person here, so far as we were able to observe. That person is Ed Mallicote, a C. & A. crossing flagman, who reported to work at 6 a. m. and now claims the company owes him for an hour's work (?). W. S. Corsa was in Chicago Monday on business with the Percheron Society of America. Wesley Frame attended a meeting of Burlington trackmen at Brighton Sunday evening. The railroad trackmen generally think they have not received adequate consideration, and there might have been a strike among this element had it not been for the admonition of the head of the locomotive engineers at the recent national convention of trackmen at Devatur, who in an address told the men not to strike under any circumstances at this time.

F. Y. Pearce was down from Galesburg over Sunday to accompany his wife and children home. She has been here for nearly three weeks following her release from the Christian hospital at St. Louis, where she underwent a critical operation by Dr. A. E. Meisenbach. The children remained here during this period of over two months. News reached here today of the death of Will E. Potts, member of an old White Hall family, which occurred following a stroke of apoplexy at Decatur Sunday, where he was at the home of his sister, Mrs. George Bicknell. He was rushed to a hospital, where he died Monday without regaining consciousness. He was 44 years of age. For the past year and a half he had been pumper for the Burlington at Rockbridge, going to Decatur two weeks ago to take a similar position on the Big Four near there for the winter. He had a stroke previously, about four years ago, while engaged in the painting business at Decatur and his constitution was weakened. His only child, Harold Potts, resides with his grandparents, Mr. and Mrs. Jacob Schroeder. The remains were brought here this evening and funeral services will be held in the M. E. church at 10 o'clock a. m. Wednesday.

The Cause of Disease

Modern Science, which is always studying cause and effect, has demonstrated that disease in adults and improper development and sickness in children are the results of nerve action due to spinal defects. The bones of the press on the nerves and interfere with the distribution of energy throughout the body. A correction of these restores uninterrupted nerve force and invariably results in the return of health.

Chiropractic (KI-RO-PRAK-TIC)

is the science that has demonstrated this connection between disease and defective spines. For years, and in the face of bitter criticism and strong opposition, Chiropractors have been adjusting the defects in spines to remove the cause of disease. Wonderful results have been obtained, even in those that were considered incurable. Everywhere there are people who have been greatly helped by

CHIROPRACTIC

Those who are not in health, who are not strong and well; are nervous; fagged-out; inefficient; and who feel they are to be recharged with vital energy, will no doubt find relief through spinal adjustments. You owe it to yourself, family and your friends to investigate Chiropractic.
